Inspection Authorization Renewal Reminder

The Inspection Authorization (IA) you now hold will expire on March 31, 2019. If you meet the eligibility requirements set forth in 14 CFR 65.93 for each year, and submit an FAA Form 8610-1 (in duplicate), your privilege may be renewed.

You are reminded to submit the renewal application, record of activity, and your certificate to the Baltimore Flight Standards Office (FSDO) for processing. The renewal can only be done in the month of March, on odd years (2017, 2019, etc.). Individuals who fail to mail their required documentation into the FSDO will not be renewed, unless other arrangements are made with the Baltimore FSDO.

The documentation required for renewal, must show proof of compliance for the years 2017 and 2018.

The Baltimore FSDO has included the announcement for the Inspection Authorization Renewal Symposium, registration form, Form 8610-1 and an activity sheet for 2017/2018. Feel free to relay this information to other aviation technicians that hold an inspection authorization. The attached forms may be duplicated. The symposium will meet the requirements of 14 CFR 65.93 (a) (4), but attendance is not required.

If you have any questions, please feel free to contact this office at 410-787-0040 ext. 266, or 234 or 217. We look forward to hearing from you.

Sincerely,

John P. Barry
Acting Manager

INFORMATION**

MECHANIC'S APPLICATION FOR INSPECTION AUTHORIZATION

PRIVACY ACT STATEMENT: This statement is provided pursuant to the Privacy Act of 1974, 5 USC § 552a:

The authority for collecting this information is contained in 49 USC §§ 40113, 44702, 44703, 44709 and 14 CFR Part 65. The principal purpose for which the information is intended to be used is to identify and evaluate your qualifications and eligibility for the issuance of an airman certificate and/or rating. Submission of the data is mandatory, except for the Social Security Number, which is voluntary. Failure to provide all required information will result in our being unable to issue you a certificate and/or rating. The information collected on this form will be included in a Privacy Act System of Records Notice (SORN) for DOT/FAA 847 (see www.dot.gov/privacy/privacyactnotices), including:

- (a) Providing basic airman certification and qualification information to the public upon request; examples of basic information include:
- The type of certificates and rating held, limitations, date of issuance and certificate number;
 - The status of the airman's certificate (i.e., whether it is current or has been amended, modified, suspended or revoked for any reason);
 - The airman's home address, unless requested by the airman to be withheld from public disclosure per 49 USC 44703(c);
 - Information relating to an airman's physical status or condition used to determine statistically the validity of FAA medical standards; and the date, class, and restrictions of the latest physical;
 - Information relating to an individual's eligibility for medical certification, requests for exemption from medical requirements, and requests for review of certificate denials.
- (b) Using contact information to inform airmen of meetings and seminars conducted by the FAA regarding aviation safety.
- (c) Disclosing information to the National Transportation Safety Board (NTSB) in connection with its investigation responsibilities.
- (d) Providing information about airmen to Federal, State, local and tribal law enforcement agencies when engaged in an official investigation in which an airman is involved.
- (e) Providing information about enforcement actions, or orders issued thereunder, to Federal agencies, the aviation industry, and the public upon request.
- (f) Making records of delinquent civil penalties owed to the FAA available to the U.S. Department of the Treasury and the U.S. Department of Justice (DOJ) for collection pursuant to 31 USC 3711(g).
- (g) Making records of effective orders against the certificates of airmen available to their employers if the airmen use the affected certificates to perform job responsibilities for those employers.
- (h) Making airman records available to users of FAA's Safety Performance Analysis System (SPAS), including the Department of Defense Commercial Airlift Division's Air Carrier Analysis Support System (ACAS) for its use in identifying safety hazards and risk areas, targeting inspection efforts for certificate holders of greatest risk, and monitoring the effectiveness of targeted oversight actions.
- (i) Making records of an individual's positive drug test result, alcohol test result of 0.04 or greater breath alcohol concentration, or refusal to submit to testing required under a DOT-required testing program, available to third parties, including current and prospective employers of such individuals. Such records also contain the names and titles of individuals who, in their commercial capacity, administer the drug and alcohol testing programs of aviation entities.
- (j) Providing information about airmen through the Civil Aviation Registry's Comprehensive Airmen Information System to the Department of Health and Human Services, Office to the Child Support Enforcement, and the Federal Parent Locator Service that locates noncustodial parents who owe child support. Records in this system are used to identify airmen to the child support agencies nationwide in enforcing child support obligations, establishing paternity, establishing and modifying support orders and location of obligors. Records listed within the section on Categories of Records are retrieved using Connect Direct through the Social Security Administration's secure environment.
- (k) Making personally identifiable information about airmen available to other Federal agencies for the purpose of verifying the accuracy and completeness of medical information provided to FAA in connection with applications for airmen medical certification.
- (l) Making records of past airman medical history data available to Aviation Medical Examiners (AMEs) on a routine basis so that AMEs may render the best medical certification decision.
- (m) Making airman, aircraft, and operator record elements available to users of FAA's Skywatch system, including the Department of Defense (DoD), the Department of Homeland Security (DHS), DOJ and other authorized Federal agencies, for their use in managing, tracking and reporting aviation related security events.
- (n) Other possible routine uses published in the Federal Register (see Prefatory Statement of General Uses for additional uses (65 FR 19477-78)) For example, a record from this system records may be disclosed to the United States Coast Guard (Coast Guard) and to the Transportation Safety Administration (TSA) if information from this system was shared with either agency when that agency was a component of the Department of Transportation (DOT) before its transfer to DHS and such disclosure is necessary to accomplish a DOT, TSA or Coast Guard function related to this system of records.

PAPERWORK REDUCTION ACT STATEMENT: A federal agency may not conduct or sponsor, and a person is not required to, nor shall a person be subjected to a penalty for failure to comply with a collection of information subject to the requirements of the Paperwork Reduction Act unless that collection of information displays a currently valid OMB Control Number. The OMB control number for this information collection is 2120-0022. Public reporting for this collection of information is estimated to be approximately 20 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, completing and reviewing the collection of information. All responses to this collection of information are required to obtain or retain a benefit by 14 CFR part 65. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to the FAA at: 800 Independence Ave. SW, Washington, DC 20591, Attn: Information Collection Clearance Officer, ASP-110.

INSTRUCTIONS FOR FAA FORM 8610-1
Mechanic's Application for Inspection Authorization

Block 1 and 2: Your name and certificate number as shown on your FAA Mechanic's Certificate.

Block 3 thru 9: Self explanatory.

Block 10, Basis for Renewal: Enter the number of individual alterations, repairs, or inspections performed for each activity during the respective year/renewal period.

Calendar year example of Year/Renewal Periods:

First Year = April 1, 2009 to March 31st, 2010 (Even Year)
Second Renewal = April 1, 2010 to March 31st, 2011 (Odd Year)

Block 11, Aircraft Maintenance Activity During Last 2 Years:

For the "Dates": Make entries in descending order.

For the "Description of Activity": Identify work performed. Do not include titles or positions.
